

DECLARATION OF PRINCIPLES

Sustainable forest Management

The Forest and Wood Products Division of Kruger Inc. integrates environmental concerns into its forest management activities. In this regard, it respects and applies the principles and commitments set forth in corporate environmental and forest policies.

In addition, the Forest and Wood Products Division undertakes to ensure that it:

- Complies with all laws and regulations and all other requirements that govern its activities;
- Actively and continuously improves its performance in matters of environmental protection and sustainable forest management;
- Prevents pollution.

The following approach is used to ensure the realization of our objectives:

- Optimize and master our forest management activities;
- Use efficient harvesting methods and silviculture techniques adapted to the local conditions of sites, with a view to sustainable management of the forest resources;
- Improve awareness and training of our employees and partners in matters of sustainable forest management and environmental protection;
- Respond efficiently to the concerns of the human environment;
- Recognize and respect aboriginal and treaty rights;
- Implement routine controls over activities that could have a significant impact on the environment;
- Set objectives and targets that foster improvement of our sustainable forest management practices.

Michel Lessard, F.E.
Vice President - Forest Operations
