Fax: 709 639-8432

Founded in 1925 by the *Newfoundland Power and Paper Company Limited*, the Corner Brook mill was acquired by Kruger Inc. in 1984.

The Mill's two paper machines produce newsprint from thermo-mechanical pulp. The Company's paper is renowned for its outstanding printability and is used extensively for four-colour printing.

The Corner Brook Mill has two hydro power plants with a combined installed capacity of over 120 megawatts supplying 70% of the mill's energy. The mill also has a 15-MW biomass cogeneration plant.

The mill also has a secondary effluent treatment system to ensure its compliance with environmental laws and regulations.

Product Information

Products and annual production capacity:

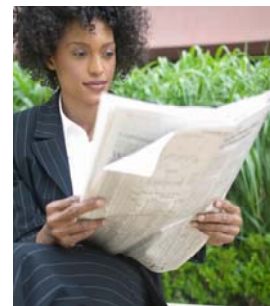

- newsprint: 250,000 MT

Furnish:

- thermo-mechanical pulp

Transportation:

- container, truck, ship

Certifications

ISO 9001:2000
PEFC (Chain of Custody)
