

Gatineau Tissue mill

Gatineau, Québec

Manufacturing – East Region

Certifications

2002 - HACCP [Food Contact - Hazard Analysis and Critical Control Points]

2004 - ISO 9001:2000

Capacity: 80,000 metric tonnes/year

The Gatineau Tissue mill comprises a distribution center, a converting facility and a mill.

It operates three paper machines and state-of-the-art converting equipment to produce well-known products such as Scotties®, White Swan® facial tissues, White Swan® Napkins and Cashmere® and White Swan® bathroom tissues.

The mill shares services such as processed water, steam and effluent treatment with a neighboring forest products company.
