

Papeles Nacionales SA.
Colombia

Papeles Nacionales S.A. is one of the largest tissue mills in Colombia, with a total annual capacity of 71 000 tonnes. It is strategically located at the center of the Bogota-Medellin-Cali triangle, close to Buenaventura, the country's main Pacific port.

In order to satisfy the increasing demand of the Colombian market, Papeles Nacionales S.A. expanded its production capacity and distribution network. The company distributes bathroom tissue, napkins, paper towels, facial tissue, wrapping paper and commercial products throughout Colombia. It also supplies Ecuador through its subsidiary Papeles del Pacifico, and Peru via the joint venture Papelera Inka.

Fibras Nacionales Ltda., an affiliate of Papeles Nacionales, collects waste paper from throughout Colombia. The majority of this waste is processed in two state-of-the-art deinking and bleaching facilities with an annual capacity of 57 000 tonnes/year of chlorine-free high-brightness deinked pulp.

The company serves markets in Central America, the United States, the Caribbean and the United Kingdom, as well as Peru and Ecuador.
