

PRESS RELEASE
For immediate release

**KRUGER TO MAINTAIN ALL CRITICAL ACTIVITIES
IN ACCORDANCE WITH GOVERNMENT COVID-19 GUIDELINES**

Montreal, March 24, 2020 – As a provider of goods and services that consumers and businesses rely on for their everyday needs, Kruger Inc. announced today that it will be maintaining all of its operations that have been declared essential by Canadian and U.S. authorities or COVID-19 government guidelines, including the manufacture of tissue products, food packaging and containerboard, newsprint, publication and specialty papers, as well as recycling services, the bottling of beverages and the production of electricity.

Kruger is working closely with suppliers, contractors, shippers and customers to maintain these activities and ensure that our products continue to meet the essential needs of North Americans.

The Company has also implemented rigorous safety and hygiene protocols to ensure that employees identified as part of its essential workforce remain safe and contribute to preventing the spread of the coronavirus.

Consequently, the following plants will continue to operate until further notice:
